Summary

Dynamic and results-oriented with a passion for continuous learning and effective collaboration. Demonstrated expertise in designing and developing innovative, scalable, and maintainable web applications. Skilled in HTML, CSS, JavaScript, and front-end frameworks, with 2 years of hands-on experience. Proactive in staying updated on industry trends and fostering efficiency to contribute to the achievement of set goals.

Relevant Experience

Speak out Africa for Children, (Volunteer)

Team Lead / Frontend web Developer

FEB 2023 - JUNE 2023

- Led front-end team, coordinated efforts, and motivated members to achieve project goals, ensuring seamless collaboration
- Collaborated closely with product designer, implementing accurate UI/UX using Bootstrap and replicating Figma design, resulting in visually appealing and user-friendly web experiences.
- Demonstrated proficiency in front-end development by building functional web pages using Bootstrap, effectively translating design concepts into interactive and responsive interfaces.
- Optimized workflow and enhanced code collaboration by utilizing Git for streamlined collaboration, code management, and maintaining version-controlled repository on GitHub.

Pasify Technologies, — web Developer

JAN 2021 - DEC 2022

- Mastered HTML, CSS, and JavaScript, developing top-quality code for diverse projects, including a personal portfolio website and numerous fully functional front-end web applications.
- Verified front-end code functionality across browsers and platforms, ensuring seamless user experiences and consistent performance.
- Stayed current with industry techniques, technologies, and trends, adapting to evolving standards for delivering cutting-edge solutions.
- committed to professional growth by actively participating in continuing education, attending relevant conferences, and engaging in workshops to stay updated on current web technologies and programming practices.

Skills

Programming language

JavaScript, TypeScript, HTML, CSS, and Sass.

Libraries and Frameworks

React, Bootstrap, and Tailwind.
